

Statistical Appendix

The IMF's Middle East and Central Asia Department (MCD) countries and territories comprise Afghanistan, Algeria, Armenia, Azerbaijan, Bahrain, Djibouti, Egypt, Georgia, Iran, Iraq, Jordan, Kazakhstan, Kuwait, the Kyrgyz Republic, Lebanon, Libya, Mauritania, Morocco, Oman, Pakistan, Qatar, Saudi Arabia, Somalia, Sudan, Syria, Tajikistan, Tunisia, Turkmenistan, the United Arab Emirates, Uzbekistan, the West Bank and Gaza, and Yemen.

The following statistical appendix tables contain data for 31 MCD countries. Data revisions reflect changes in methodology and/or revisions provided by country authorities.

A number of assumptions have been adopted for the projections presented in the *Regional Economic Outlook Update: Middle East and Central Asia*. It has been assumed that established policies of national authorities will be maintained, that the price of oil¹ will average US\$35.61 a barrel in 2020 and US\$37.87 a barrel in 2021, and that the six-month London interbank offered rate (LIBOR) on U.S.-dollar deposits will average 0.7 percent in 2020 and 0.6 percent in 2021. These are, of course, working hypotheses rather than forecasts, and the uncertainties surrounding them add to the margin of error that would in any event be involved in the projections. The 2020 and 2021 data in the figures and tables are projections. These projections are based on statistical information available through April 7 2020.

All data for Syria are excluded for 2011 onward due to the uncertain political situation. Lebanon's projections for 2021 onward are omitted due to an unusually high degree of uncertainty.

All data refer to the calendar years, except for the following countries, which refer to the fiscal years: Afghanistan (March 21 to March 20 until 2011, and December 21 to December 20 thereafter), Iran (March 21 to March 20), and Egypt and Pakistan (July to June) except inflation.

Data in Tables 7 and 8 correspond to the calendar year for all aggregates and countries, except for Iran, for which the Iranian calendar year (beginning on March 21) is used.

In Tables 3, 6, 13, and 14, "oil" includes gas, which is also an important resource in several countries. Arithmetically weighted averages are used for all data aggregates except consumer price index, for which geometric averages are used.

REO aggregates are constructed using a variety of weights as appropriate to the series:

- Composites for data relating to the domestic economy (Tables 1, 3, 7–8), whether growth rates or ratios, are weighted by GDP valued at purchasing power parities (PPPs) as a share of total MCD or group GDP. Country group composites for the growth rates of broad money (Table 9) are weighted by GDP converted to U.S. dollars at market exchange rates (both GDP and exchange rates are averaged over the preceding three years) as a share of MCD or group GDP.
- Aggregates for fiscal data (tables 10–17) are sums of individual country data after conversion to US dollars at the average market exchange rates in the years indicated, in percent of aggregate GDP, also in US dollars.
- Composites relating to the external economy in nominal terms (Tables 18–20 and 22) are sums of individual country data. Composites relating to external economy in percent of GDP (Tables 21 and 23) are weighted by GDP in U.S. dollars as a share of MCD or group GDP in U.S. dollars.
- Composites in Tables 2, 4, and 5 are sums of the individual country data.

The following conventions are used in this publication:

- In tables, ellipsis points (. . .) indicate "not available," and 0 or 0.0 indicates "zero" or "negligible." Minor discrepancies between sums of constituent figures and totals are due to rounding.

¹Simple average prices of U.K Brent, Dubai, and West Texas Intermediate crude oil.

Sources: National authorities; and IMF staff estimates and projections.

¹Qatar's data since 2010 reflect the recently-published national accounts based on 2013 constant prices; data prior to 2010 are from Haver

²For Lebanon, projections for 2021 are omitted due to an unusually high degree of uncertainty.

³West Bank and Gaza is not a member of the IMF and is not included in any of the aggregates.

Note: MENAP oil exporters: Algeria, Bahrain, Iran, Iraq, Kuwait, Libya, Oman, Qatar, Saudi Arabia, the United Arab Emirates, and Yemen.

Gulf Cooperation Council (GCC): Bahrain, Kuwait, Oman, Qatar, Saudi Arabia, and the United Arab Emirates.

Non-GCC oil-exporting countries: Algeria, Iran, Iraq, Libya, and Yemen.

MENAP oil importers: Afghanistan, Djibouti, Egypt, Jordan, Lebanon, Mauritania, Morocco, Pakistan, Sudan, Syria, and Tunisia.

MENA: MENAP excluding Afghanistan and Pakistan.

Arab World: Algeria, Bahrain, Djibouti, Egypt, Iraq, Jordan, Kuwait, Lebanon, Libya, Mauritania, Morocco, Oman, Qatar, Saudi Arabia, Somalia, Sudan, Syria, Tunisia, United Arab Emirates, and Yemen.

CCA oil and gas exporters: Azerbaijan, Kazakhstan, Turkmenistan, and Uzbekistan.

CCA oil and gas importers: Armenia, Georgia, the Kyrgyz Republic, and Tajikistan.

Conflict countries: Libya, Syria, and Yemen.

North Africa: Algeria, Djibouti, Egypt, Libya, Mauritania, Morocco, Sudan, Tunisia.

¹Egypt's current account in percent of GDP data differs from the data reported in the Staff Report for 2017 Article IV consultation with Egypt. The latter calculates annual GDP, based on quarterly GDP converted at the corresponding quarterly average exchange rate to better capture the impact of the large devaluation in November, 2016.

²West Bank and Gaza is not a member of the IMF and is not included in any of the aggregates.

Sources: National authorities; and IMF staff estimates and projections.

¹Calculated as reserves in months of next year's imports.

²Saudi Arabia Monetary Agency gross foreign assets.

³Central bank only. Excludes overseas assets of sovereign wealth funds. Reserves in months of imports, net of re-exports are 5.4%, 4.7% and 4.3% for 2016, 2017 and 2018.

⁴In the case of Djibouti, the ratio of reserves to total imports understates the reserve coverage, since a large part of imports reflect re-export activities.

⁵Excludes gold and encumbered assets.

⁶Gross international reserves exclude reserve assets in non-convertible currencies.

⁷West Bank and Gaza is not a member of the IMF and is not included in any of the aggregates.
