¹ Compound annual rate of change for employment and output per capita; arithmetic average for unemployment rate.² National definitions of unemployment may vary.³ See the country-specific note for Israel in the "Country Notes" section of the Statistical Appendix.⁴ Excludes the Group of Seven (Canada, France, Germany, Italy, Japan, United Kingdom, United States) and euro area countries.⁵ Output per capita is in international dollars at purchasing power parity.⁶ Data are calculated as the sum of data for individual euro area countries.

Note: The country group composites for fiscal data are calculated as the sum of the US dollar values for the relevant individual countries.

¹ On a national income accounts basis except as indicated in notes. The methodology and specific assumptions for each country are discussed in Box A1.

² Figures reported by the national statistical agency are adjusted to exclude items related to the accrual-basis accounting of government employees' defined-benefit pension plans.

³ Data cover the consolidated central government, including social security funds but excluding privatization.

⁴ See the country-specific note for Israel in the "Country Notes" section of the Statistical Appendix

⁵ Data exclude total social contributions and payments, not only social security.

⁶ Data are on a budget basis.

⁷ Data are on a national income basis and exclude social security transactions.

⁸ Excludes the Group of Seven (Canada, France, Germany, Italy, Japan, United Kingdom, United States) and euro area countries.

<i>Memorandum</i>										
Major Advanced Economies	-3.3	-3.4	-4.0	-8.0	-7.7	-5.0	-5.7	-5.8	-5.2	-4.6

Note: The country group composites for fiscal data are calculated as the sum of the US dollar values for the relevant individual countries.

¹ On a national income accounts basis. The structural balance position is defined as actual net lending/borrowing minus the effects of cyclical output from potential output, corrected for one-time and other factors, such as asset and commodity prices and output composition effects. Because of the margin of uncertainty that attaches to estimates of cyclical gaps and to tax and expenditure elasticities with respect to national income, indicators of structural budget positions should be interpreted as broad orders of magnitude. Moreover, it is important to note that changes in structural balances are not necessarily attributable to policy changes but may reflect the built-in momentum of existing expenditure programs. In the period beyond that for which specific consolidation programs exist, it is assumed that the structural deficit remains unchanged.

² Figures reported by the national statistical agency are adjusted to exclude items related to the accrual-basis accounting of government employees' defined-benefit pension plans.

³ Excludes sizable one-time receipts from the sale of assets, including licenses. For Spain, includes adjustments beyond the output cycle.

⁴ Excludes the Group of Seven (Canada, France, Germany, Italy, Japan, United Kingdom, United States) and euro area countries.

⁵ Excludes oil and income on the Government Pension Fund-Global.

⁶ Excludes temporary fluctuations in some revenues (for example, North Sea revenue, pension yield tax revenue) and one-offs. COVID-related one-offs are included.

¹ Apart from interest, debt service for a particular year includes amortization of short-term debt on an original-maturity basis outstanding at the end of the previous year, plus the portion of long-term debt outstanding at the end of the previous year maturing during the current year. The projections incorporate the impact of exceptional-financing items.

² Total debt at the end of the year in percent of exports of goods and services in the year indicated.

¹ Excludes service payments to the IMF.

² Interest payments and amortization on total debt. Estimates through 2024 reflect debt-service payments actually made. Estimates for 2025 and 2026 take into account projected exceptional-financing items, including accumulation of arrears and rescheduling arrangements. In some cases, amortization on account of debt-reduction operations is included.
